Divinely Designed To Be Disease Free... Are you ever too young or old to learn something new??

CCS Church Challenge, Health Platform Workshop Series ~ Module 1

Please carefully consider the Common Sense of what is presented here ...

Churchof Common Sense. Life/Church Challenge

Do You Believe God Designed/Created our Bodies?

Do You Wish to Serve God, Others and All Life with (Matt. 22:37) All Your Heart, Mind, Soul; And Body?

Consider this: What We Eat, Think and Do Is Critical to Our Health, Happiness, Mobility and Longevity...

Seek Truths How to Naturally Eliminate 95% of All Illness and Disease as God Intended 🙏

Biophotons = Biological Light

(Bio = Coming from a biological being Photon = Light Particles)

This image shows biophotons

in a drop of water

2

The starting point of the biophoton appears as a sun radiating its six rays of light

3

The sun starts to open up showing a black, six-pointed star in its center

4

The black star, has now turned into a small white six-pointed star with a tightly held hexagonal shape around it

5

The white star, now turns into a black six-pointed star with the hexagonal shape opening up and expanding around it 6

The black star has once again turned into a solid white six-pointed star reaching to the edge of the outer hexagon

7

The white star is now opening itself up showing an open-line (black and white) six-pointed star

8

We now see a small black six-pointed star in the center of a larger, open-line, six-pointed star 9

As we bring the biophoton to its largest state we can see the many layers of hexagonal shapes within and a luminous aura between each layer

Every living thing emits a constant current of biophotons. If you look closely in these particles of light you will see various shapes of sacred geometry. We literally continuously emit tiny particles of light and sacred geometry. The best thing is, we can control and direct these photons where to go and what to do with just pure thought and intention.

Notice the similarities between the final stage of the biophoton and the sacred geometry flower of life

Photography proves that you are energy manifested in the physical form and allows the bare eye to see the energy which inhabit and surround our physical body. This knowledge can be used to heal any dis-ease, pain and imbalance in the body.

Organic Broc. Conventional Broc. Cooked baby carrot Raw baby carrot Organic tomato Conventional tomato

This photographic technique utilizes 50,000 volts in a broad range of frequencies to resonate with the test objects capturing their paterns for analysis whether living or non living.

Notice how Meats, Cooked Foods and non-Organic, Have Comparatively Very Little of God's Biophotonic/Life-Force Energy, Which Is Critical to All Life...

Do you realize each living cell (70+/- Trillion cells) emits and absorbs upwards of 100,000 photons per second? Our Light-Bodies are sending information down 26,000 miles of neural pathways giving us near instant thought

The most detailed model of a human cell to date, obtained using x-ray, nuclear magnetic resonance and cryoelectron microscopy datasets. The world is inside us

and movement? Biophoton's, or ultra-weak photon emissions of biological systems, are electromagnetic waves in the optical range of the spectrum ~ in other words:

'Light'

http://
americanbiophoton
association.com/
biophoton-light/

By the time you finish reading this sentence, 50 million of your cells will have died and been replaced by others.

What the heck is a Torus field?

Research has shown that we are more than our physical bodies, we are also have bio energetic drivers. To be healthy, we must attend to both aspects – the physical and the energetic. We have a body field, a dynamic structure of information that servers as a master control system for the physical body – the Torus Field.

The torus allows a vortex of energy to form which bends back along itself and re-enters itself. It 'inside-outs', continuously flowing back into itself. Thus the energy of a torus is continually refreshing itself, continually influencing itself.

When the torus is in balance and the energy is flowing we are in a perfect state to clear ourselves of anything that is 'not self' anything that prevents us being our Healthy, Authentic Selves. In humans the energy flow in through the head and feet is bidirectional.

We are influenced by the energy and information fields internal and external to us, and our own energy and information extends beyond the limits of our bodies to interact with other people and to influence the material world.

Thrive 2012 must watch/share documentary!!! ~ Thrive-II 2020

Literally Electromagnetic Transmitter/Receivers, In-Tune with Source God,,, if we so choose...

The electromagnetic field of the heart

How do We know God Designed Mankind? <u>Genesis 1:27</u> God Created man in His own image, in the Image of God He Created them; Male and Female He Created them.

Where did this event take place? Genesis 2:8 The Lord God planted a garden toward the east, in Eden; and there He placed the man whom He had formed. {Compare our current lifespan to all other vertebrate animals and humans should live an average of 120 years!!}

Thinking of the Garden of Eden, How many Eat an Organic Primarily Plant-Based Mostly Raw Diet Full of Life-Force? Why not, if not??

{ Mostly Raw ~ When we consume less than 75% Raw (over 116F Kills Enzymes etc.) Organic Plants Impacts Our Immune Systems. }

Divine Diet ~ Scientifically Proven, Humans are Organic Mostly Raw Vegans ...

approximately 14 pounds of chemicals annually; 1/10 of an ounce daily (2.28#'s yearly) of just herbicides and pesticides, nearly 2/3 ounce (14#'s yearly) [plus injected Hormones etc. within animal products] in the typical non-organic S.A.D. Standard American Diet, approaching 1 ounce daily (20+ pound's each year) when you add in makeups, pharmaceuticals, and other environmental pollutants.

(Fact Library link also at the Church Challenge tab) 14 pounds of

Do you realize: If you are not eating Organic you are consuming

Chemicals plus Hormones etc. from meats and animal discharge products FOOD & FARMING "The average American eats 14 pounds of chemicals each year—2 pounds of these are pesticides and herbicides.

What do you think the results on our bodies are?

The typical bag of potato chips bought at the supermarket has been subjected to more than 50 chemicals from seed to shelf and can

contain up to 75 times the "safe" levels of cancer-causing acrylamide established by the state of California."

What effects do you think an ounce a day or any amount of external chemicals, hormones, vaccines, pharmaceutical etc. has on our bodies on a daily basis?

Genesis 1:29 The God said, "Behold, I have given you every plant yielding seed that is on the surface of all the earth, and every tree which has fruit yielding seed; it shall be food for you."

What effects from eating meats/flesh, consuming animal milks, cheeses, eggs, highly processed foods, etc. has on the health of our bodies? What IF,,, We fueled the Temples of our Eternal-Selves a Divinely Designed, Scientifically Proven, Organic, Plant-Based, Mostly Raw, Garden of Eden Type Diet and LifeStyle???

Instead of misguidedly slaughtering 80+ Billion suffering animals and 1.2 Trillion fish per year. Just think of the vast agricultural, energy and other resources needlessly wasted on the production of flesh for mankind's consumption.

Coupled with the drastic adverse effects to our Planet; Adopting an Organic Vegan Lifestyle alone would change our world dramatically for the <u>Betterment of All Life</u>, and address human effects on climate change like nothing else can!!!

HTTPS://OCOY.ORG/HUMANS-ARE-WE-CARNIVORES-OR-VEGETARIANS-BY-NATURE/

When you look at the comparison between herbivores and humans, we compare much more closely to herbivores than meat eating animals. Humans are clearly not designed to ingest or digest meat.

- Meat-eaters: have sharp front teeth for tearing, with no flat molar teeth for grinding
- Herbivores: no sharp front teeth, but flat rear molars for grinding

• Humans: no sharp front teeth, but flat rear molars for grinding

- Meat-eaters: have intestinal tract that is only 3 times their body length so that rapidly decaying meat
- Herbivores: have intestinal tract 10-12 times their body length.
- Humans: have intestinal tract 10-12 times their body length.

can pass through quickly

- Meat-eaters: have strong hydrochloric acid in stomach to digest meat
- Herbivores: have stomach acid that is 20 times weaker than that of a meat-eater
- Humans: have stomach acid that is 20 times weaker than that of a meat-eater

Clearly if humans were meant to eat meat we wouldn't have so many crucial ingestive/digestive similarities with animals that are herbivores.

The Warning! Signs of Clogged Arteries

When cholesterol particles build up in the arteries, they form plaques that narrow the path for blood flow. Narrowed arteries strike all areas of the body and can lead to pain and discomfort and ultimately result in heart attack.

▼ Stroke:

Plaque that accumulates in the carotid arteries, which carry blood to the brain, can result in stroke.

▼ Fatigue and Dizziness:

Reduced oxygen from poor blood flow can result in dizziness and extreme fatigue, especially in women.

Shortness of Breath:

Reduced blood flow can lead to shortness of breath.

Chest Pain:

Chest pain, or angina, results from reduced blood flow to the heart. Angina can be felt as pressure, numbness, tightness, squeezing, or burning.

▼ Lower Back Pain:

When blood flow to the lower back is reduced, the disks between the vertebrae become fragile, which can result in painful pinched nerves.

Erectile Dysfunction:

Narrowed arteries to the genitals can cause sexual dysfunction.

Painful, Numb, or Cold Hands and Feet:

Plaque in the arteries leading to the arms and legs can result in painful, numb, and cold extremities.
